VISION 2030 JAMAICA

NATIONAL DEVELOPMENT PLAN

“PLANNING FOR A SECURE & PROSPEROUS FUTURE”
Vision 2030 Jamaica is the nation’s first long-term national development plan which will put Jamaica in a position to achieve developed country status by 2030.
Open Government

- Consultation Code of Practice (2005) - Consultation Code represented “part of a continuum of involving Jamaicans more effectively in the process of governance and giving better service to the people who have entrusted us policymakers, administrators and implementers with the responsibility of managing the nation’s resources in the best possible manner.”
- E-Dashboard of Indicators (2013) – development results
- Jamaica House Petition (2017) - The portal gives citizens the opportunity to petition the government on matters of national importance. The OPM will consider petitions submitted by local groups and members of the public as part of its national consultation approach.
- Big Data – Better business, better governance, better government - in a world governed by smartphones, GPS, intelligent thermostats and seemingly ‘independent’ appliances that can practically do anything … data drives our every move today. This is fast becoming Jamaica’s everyday reality too, with over 80% of the smartphones used by Jamaicans actively using mobile data
- Increased use by government of online sources – websites, social media etc
Development Planning in Jamaica

“Vision 2030 Jamaica introduces a new paradigm for Jamaica.... It puts us on a different path... a path to sustainable prosperity... It calls for every citizen to participate in both the responsibilities and benefits of national development ... as a fundamental strategy...”

Vision 2030 Jamaica had made a bold choice to focus on the advancement of the higher forms of our country’s capital stocks... moving the country to an innovation-driven stage of development...
Development Planning in Jamaica – the New Paradigm for the 21st Century

- Long term planning horizon with a strategic focus
- Bi-Partisan support
- High levels of stakeholder involvement and engagement, including Diaspora
- Involvement of children and youth
- A well-defined implementation framework (MTF)
- Robust monitoring and evaluation framework
- Underpinned by the principles of sustainability
- Alignment with key national and international frameworks
- A focus on transparency and accountability (performance reporting)
Preparing a National Development Plan – The Experience of Vision 2030 Jamaica

- Define a Vision
- Determine consensus building and participatory process
- Establish Plan Advisory Group
- Set guiding principles
- Establish Task Forces
- Engage in sectoral visioning, long term sector planning, strategy setting
- Integration of sector plans into a national development plan using RBM principles
- Development of M & E Framework
National Vision Statement

Jamaica, the place of choice to live, work, raise families, and do business"
GUIDING PRINCIPLES

- Transparency & Accountability
- Transformational Leadership
- Partnership
- Equity
- Social Cohesion
- Sustainability: (Economic, Social, Environmental)
- Sustainable Urban & Rural Development
Key Components of Sector Plans

- Situational Analysis of the Sector
- SWOT Analysis
- Strategic Vision and Planning Framework – Vision, Goals and Outcomes
- Implementation, Monitoring and Evaluation Framework (Indicators and Targets)
- Action Plan for the Sector

Integrated National Development Plan (National Level)

Medium-Term Socio-Economic Policy Framework (National Level) - National Policies and Sector Plans (Sector Level)

Corporate & Operational Plans & Budgets of Public Sector MDAs, Private Sector Investments, Civil Society Projects, IDP Country Programmes and the Diaspora
Implementing Vision 2030 Jamaica: Medium Term Socio–Economic Policy Framework (MTF)

- Main Mechanism to Operationalize the Implementation of Vision 2030 Jamaica
- Three –Year Package of Priority Outcomes, Strategies, Actions and Programmes
- Three MTFs have been developed to date – 2009 – 2012, 2012 – 2015, 2015 - 2018
Provides national and sector priorities to guide and coordinate development efforts and initiatives of national stakeholders for next three years

Framework to align strategic plans and budgets of government MDAs with Vision 2030 Jamaica within the medium term

MTF 2015 - 2018

MTF 2015-2018 will be highly aligned with other national planning frameworks including the Medium Term Economic Programme and Growth-Inducement Strategy

Accepted by IDPs as basis for formulation of country programmes for Jamaica and by EU as strategic document for design of development assistance to Jamaica
Phase I - Preparatory Planning Process

Phase II - Jamaica Country Assessment and National Prioritization Workshop

Phase III - Strategic Prioritization

Phase IV - MTF 2015-2018 Preparation and Finalization

Process for Preparation of MTF 2015–2018
MTF 2015 – 2018: Achieving Inclusive Growth and Sustainable Development

- National Security and Justice
- Economic Stability, Growth and Employment
- Development and Protection of Human Capital
- Environmental Resilience and Climate Change Response

Inclusive Growth and Sustainable Development
The Sustainable Development Goals?
Will Jamaica Achieve the SDGs?

2009

Vision 2030 Jamaica – National Development Plan promulgated and plan implementation began under 1st MTF 2015 - 2018

2015 - 2016

• The 2030 Agenda adopted in September 2015 and came into effect January 1, 2016
• Jamaica has commenced implementation of the SDGs as part of its implementation of Vision 2030 Jamaica

2030

Jamaica achieves the SDGs and its National Vision to become a Developed Country
Vision 2030 Jamaica – National Development Plan, its implementation framework – the Medium Term Socio-Economic Policy Framework (MTF) and sectoral policies are strongly aligned with the SDGs.

Jamaica’s planning documents reflect, either full or partial alignment, and there was a 91 per cent alignment with the 115 SDG targets deemed relevant for the country.

Vision 2030 Jamaica will thus be the axis around which SDG implementation will be organized, and the Roadmap for SDG Implementation proposes a set of accelerators under each of the four national goals that will support the overall achievement of Vision 2030 Jamaica.
Alignment of Jamaica's Planning Framework/Key Planning Documents with the SDGs
