Final considerations

1. ILPES **fulfilled the programme of work** adopted and the requests of the Regional Council for Planning.
2. Regional public goods have been consolidated working jointly with the countries and key stakeholders to provide spaces for knowledge-sharing and collective learning.
3. Beyond “what has to be done”, the activities reflect the demands of “**how it is to be done**”.
4. One of the greatest challenges is providing supporting for the countries in territorializing planning and the 2030 Agenda for Sustainable Development.
